What We Do (3-Card Overview)

A simple, clean layout with three equal-width cards.

Strategic Decision Support
Clarity for leaders. Alignment for teams. Execution for the organization. We support executives and founders with structured analysis, strategic advisory, training, and decision frameworks that accelerate progress and reduce risk.
[\[Learn More\]](#)

SLED Contracting Services
Trusted delivery for State, Local, Education, and Federal partners. We provide Business Analysis, Systems Engineering, modernization support, and SDLC expertise to public-sector clients and prime contractors seeking reliable, structured execution.
[\[Learn More\]](#)

Software Development & Intelligent Systems
Practical, scalable software built to solve real problems. From AI agents to intelligent automation tools like VidSense, we create solutions that increase efficiency, reduce manual burden, and support better decision-making.

Why Organizations Choose CCST

A confidence-building section to replace your old "scope-requirements-documentation" content.

A disciplined approach grounded in Systems Thinking.
We bring structure, clarity, and full lifecycle expertise to every engagement — ensuring that technology initiatives align with organizational goals and deliver measurable results.

Our clients rely on us for:

- Clear problem definition and structured decision support
- High-quality requirements and documentation
- End-to-end SDLC guidance for Agile and traditional environments
- Reliable modernization planning and execution
- Practical guidance rooted in real-world experience

Service-Disabled Veteran-Owned Small Business (SDVOSB) • Founded 2019

Supporting Florida DOEA, NYS ITS, and commercial organizations

Experienced in HIPAA, CMMC, and state-level compliance environments

How We Work (Simple 4-Step Process)

A modern homepage should show the path — it reduces uncertainty and increases conversions.

1. Initial Consultation
We discuss your objectives, challenges, and desired outcomes.

2. Assessment & Clarity
We analyze your environment, identify gaps, and provide structured insight.

3. Roadmap & Recommendations
You receive a clear, actionable plan aligned with your goals.

4. Execution & Support
We partner with your team to deliver measurable, predictable results.

About Campbell Consulting Services of Tallahassee (CCST)

Strategic Insight. Systems Thinking. Practical Innovation.

Campbell Consulting Services of Tallahassee LLC (CCST) is a Service-Disabled Veteran-Owned Small Business (SDVOSB) specializing in Business Analysis, Systems Engineering, IT Strategy, and modern digital transformation. Founded in 2019 and headquartered in Tallahassee, Florida, CCST supports government agencies, commercial organizations, and technology teams seeking clarity, structure, and dependable execution across their most important initiatives.

We combine full life cycle systems thinking with practical, real-world consulting to help organizations modernize operations, align technology investments with strategic goals, and deliver lasting outcomes. Our capabilities span IT strategy development, requirements engineering, stakeholder engagement, agile delivery, cybersecurity support, data initiatives, and full SDLC project execution. Whether guiding a modernization effort, supporting a state or federal program, or building intelligent software solutions, CCST brings disciplined processes and a client-centered approach to every engagement.

As a trusted partner in both the public and private sectors, we pride ourselves on measurable results, transparency, and sustained impact. Our work is grounded in rigorous analysis, well-defined processes, and a deep understanding of regulatory and operational environments—including HIPAA, CMMC, and state-level compliance requirements.

Our Mission

To bring clarity, structure, and disciplined execution to every initiative we support—transforming complexity into actionable insight and enabling strong, sustainable outcomes for our clients.

Our Differentiators

CCST's strength comes from our commitment to structured execution and systems thinking:

- **Full-Lifecycle Systems Thinking** that ensures initiatives are grounded in clarity, alignment, and traceability.
- **Expert Requirements Engineering** and process definition that reduce ambiguity and accelerate delivery.
- **Strategic IT Guidance** that helps leaders make informed decisions and reduce operational risk.
- **Reliable Change Management & Configuration Support** that minimizes downtime and improves long-term stability.

Across every service line—Strategic Decision Support, SLED Contracting, and Software Development—our mission remains the same: to help organizations transform complexity into actionable insight and position themselves for long-term success.

Leadership

Daniel Campbell — Founder & Principal Business Analyst / Systems Engineer

Service-Disabled Veteran, 14 years Army/National Guard

10+ years supporting government and commercial IT initiatives

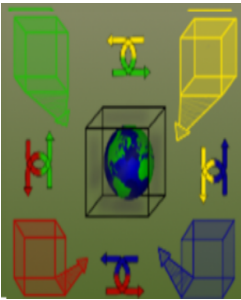

Focused on clarity, structure, and mission-driven client outcomes
